## Speciality Coffee

Our espresso based drinks are all brewed using our Ten Hands House Blend No.10  
(also available in retail packs for you to brew at home. Grinding service free of charge.)

We also have a seasonal Guest Espresso available, which will rotate regularly and can be used as an alternative in any of the drinks below. *Just ask your server.*

Our decaffeinated coffee beans are processed using CO2 which leaves much of the coffee's character intact. We still brew to time, weight and temperature so all that's missing is the caffeine and not the full bodied taste.
